OBJECTIVE

Detail-oriented and highly motivated Computer Science & Engineering undergraduate with a strong academic foundation and hands-on experience in Machine Learning and Full-Stack Development. Proven problem-solving capabilities demonstrated through national-level hackathon participation, an industry internship, and elite-tier technical certifications. Seeking an impactful software engineering or data science role to leverage technical skills in Python, Java, SQL, and modern web frameworks to drive innovative solutions.

EDUCATION

BTech, Computer Science & Engineering <i>Swami Vivekananda Institute of Science & Technology, MAKAUT Kolkata, WB</i>	06/2023 – 06/2027
Class XII (WBCHSE) <i>Panchkahanja High School, WBCHSE Jhargram, WB Percentage:84%</i>	05/2022 – 05/2023
Class X (WBBSE) <i>Panchkahanja High School, WBBSE Jhargram, WB Percentage:93%</i>	07/2021

TECHNICAL SKILLS

Core CSE: DSA, Algorithms, OOPS (Java),
AI / ML: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Programming: Python, JavaScript, JAVA, PHP
Software Tools: Google Colab, MySQL, VS Code, Git, GitHub

PROJECTS

Weather Application

2023 – 2024

Tech Stack: JavaScript (ES6+) | HTML5 | CSS3 | REST APIs

- Developed a responsive weather application that delivers **real-time weather conditions and multi-day forecasts** using third-party REST APIs.
- Implemented asynchronous API integration with **Fetch API** and **Async/Await** to ensure fast, reliable data retrieval and a seamless user experience.
- Enhanced application reliability through robust input validation and error handling, ensuring uninterrupted performance during invalid searches or network failures.

PHP-Based Online Book Shopping Platform

06/2024 – 08/2024

Tech Stack: PHP | JavaScript | SQL | MySQL | HTML5 | CSS3

- Developed a full-stack e-commerce platform enabling users to browse, search, and purchase books through a secure and user-friendly interface.
- Implemented user **authentication**, shopping cart functionality, and database-driven order management using PHP and MySQL.
- Simplified online book purchasing for customers while providing an efficient digital platform for bookstores to **manage inventory** and improve accessibility.

AI Crop Yield Prediction

06/2025 – 09/2025 | SIH 2025

Tech Stack: Python | Scikit-learn | Pandas | NumPy | Matplotlib | XGBoost | Google Colab

- Developed an AI-powered crop yield prediction system using the **XGBoost** algorithm to forecast crop production from historical agricultural and environmental data.

- Optimized and evaluated multiple regression models, with **XGBoost achieving the highest prediction accuracy** for reliable yield estimation.
- Enabled data-driven decision-making for farmers and agricultural organizations, supporting better crop planning, resource optimization, and sustainable farming.

Face Recognition using OpenCV

02/2026 – 03/2026

Tech Stack: Python | OpenCV | Computer Vision | NumPy

- Developed a real-time face recognition system using **OpenCV** and computer vision techniques for accurate facial detection and identification through live webcam feeds.
- Implemented optimized image processing and feature extraction algorithms to achieve reliable recognition with smooth real-time performance.
- Demonstrated practical applications in **attendance management, access control, and security surveillance**, enabling automated and contactless identity verification.

EXPERIENCE

Machine Learning Intern (2 Months)

SVIST, Kolkata | Ardent Computech Pvt. Ltd. | Kolkata, WB

- Gained industry exposure executing model building pipelines, expanding knowledge across complete data life cycles from raw cleaning to performance tuning.
- Collaborated on optimizing predictive algorithms and performing feature scaling on structured operational data sets.

CERTIFICATIONS

- Ranked in the **Top 1%** of learners nationwide in the **NPTEL Computer Networks** (12-Week Course), earning the **Elite + Silver** certification.
- **Udemy Full Stack Web Development Course:** Completed an intensive credential covering end-to-end modern web architectures and application deployment.
- **PHP Certification:** Validation of core server-side scripting competencies and dynamic web development methodologies.
